Product Specifications

KN31F6 | Revised February 2015

Product Name: Fish 600

Product Description: The Fish 600 is a fully metal detectable, disposable safety knife. The large stainless steel

blade is fully concealed for upmost operator safety, this blade is ideally suited for cutting packaging paper, shrink wrap and plastic strapping. The rear hook blade is also made from stainless steel and is designed for cutting through packaging tape, string netting and cardboard. The body of the Fish 600 is made from food safe metal detectable

polypropylene, available in four colours to match your organisations colour coding.

Product Material(s): Metal Detectable Polypropylene and Stainless Steel

KN31F6 **Product Prefix:**

Product Colour: Blue, Red, Green, Yellow

Pack Size: Pack of 10

Product Advantages: Can be detected by conventional in line metal detection systems

Simple design minimises any potential 'germ traps'

Can be used for a variety of applications within hygiene critical processing environments

Concealed blades minimise the risk of injury and drawing blood

✓ Displays a use of all due diligence in the prevention of foreign body contamination

Metal Detectability

The material of the Fish 600 is intended to be detected by metal detection systems. Detectability performance will vary based on, but not limited to the following factors:

- Detector Calibration Levels
- Food Product Type (E.g. Wet, Dry, Frozen, Liquid)
- Aperture Dimensions
- Contaminant Orientation

For this reason BST recommend that all our products be thoroughly tested on your metal detection systems by a trained and certified professional. It may be the case that your equipment needs to be recalibrated in order to reliably detect this product and its fragments. Such a professional should be available by contacting the manufacturer of your metal detection system.
