

## Product Specifications

PED00HCHB | Revised March 2015

**Product Description:** The HiCare Detectable Hairnet represents the latest advancements in detectable hairnet and hair contamination prevention technology. The unique patent pending design of the HiCare Hairnet is constantly working to hold the head of hair and hold hairs flat to contain hairstyles of all lengths.

The HiCare Detectable Hairnet features an ultra close mesh, offering x2 times better hair containment than a traditional mesh hairnet.

**Product Code:** PED00HCHB

**Batch Quantity:** Packs of 100

**Batch Weight:** 0.400kg

**Product Dimensions:** Adjustable / Stretch to 5cm

**Colour Availability:** Blue

**Product Advantages:**

- ✓ Detectable by conventional metal detection systems
- ✓ Highly visible bright blue colour for easy visual identification
- ✓ Significantly reduces foreign body facial hair contamination
- ✓ Two integral metal detectable grips reduces the risk of the product itself becoming a foreign body contaminant

**Product Material(s):** Manufactured from Polypropylene 56 Decitex (ISO 9001), featuring elastic made from nylon covered rubber and two Stainless Steel grips.

**Dye Fastness:** 4/5 Grey Scale C06A2S

## Metal Detectability

The HiCare Detectable Hair Cover contains two 5mm Stainless Steel grips (Front & Back), which can be detected by correctly calibrated metal detection systems.

The detectability of this material will vary based upon the metal detection systems being used and their calibration. Detectability performance will vary based on, but not limited to the following factors:

- Detector Calibration Levels
- Food Product Type (E.g. Wet, Dry, Frozen, Liquid)
- Aperture Dimensions
- Contaminant Orientation

For this reason BST recommend that all our products be thoroughly tested on your metal detection systems by a trained and certified professional. It may be the case that your equipment needs to be recalibrated in order to reliably detect this product and its fragments. Such a professional should be available by contacting the manufacturer of your metal detection system.
