

BST JUMBO MARKER

METAL DETECTABLE JUMBO PALLET MARKER

PAGE 1 of 2

Product Specifications

ST1M6000MSK | Revised Nov 2014

Product Name:	Detectable Jumbo Pallet Marker
Product Description:	<p>The BST 'Detectable Jumbo Pallet Marker' is a large capacity permanent marker designed for use on paper, wood, plastic, glass, concrete and clean or printed metals. The body of the marker is made from aluminium, and features a metal detectable MDPE cap.</p> <p>The oversized broad polyester nib is designed for the bold, permanent and highly visible marking of pallets and other objects within an environment that requires due diligence in the prevention of foreign body contamination.</p>
Product Code:	ST1M6000MSK
Product Dimensions:	150mm x 27mmØ
Pack Size:	Pack of 10
Pack Weight:	0.55 Kg
Product Colour:	Metallic with black cap & nib
Ink Colours:	Black
Product Materials:	The marker body is manufactured from aluminium, the cap is manufactured from metal detectable medium-density polyethylene, the nib is polyester and the ink is alcohol based permanent ink.
Product Advantages:	<ul style="list-style-type: none">✓ Body & cap can be detected by conventional metal detection systems✓ Oversize broad nib for the clear marking of pallets and large objects✓ Contains sure flow ink - will continue to flow for several days even with the cap left off✓ Permanently marks paper, wood, plastic, glass, concrete and metal✓ Displays due diligence in the prevention of foreign body contamination

METAL DETECTABLE JUMBO PALLET MARKER

PAGE 2 of 2

Ink Type: Alcohol Based Permanent Marking Ink

Ink Properties: Ink contact with skin is not considered hazardous when coming into contact with skin through normal use. In the event of abnormal use causing health problems please refer to the below information:

<u>Route</u>	<u>First Aid</u>
Oral:	Give plenty of water to drink if ingestion is suspected
Skin Contact:	Wash skin with soap and water
Eye Contact:	Irrigate with water for ten minutes - obtain medical attention
Inhalation:	Remove from exposure - in severe cases obtain medical attention

Handling / Storage: Store at room temperature, keep away from direct heat and keep in original container.

Metal Detectability: The body of the marker is made from solid aluminium, thus should be detectable by correctly calibrated metal detection systems.

The cap of the marker is manufactured from metal detectable medium-density polyethylene. This compound contains an evenly dispersed non-toxic metal detectable additive, making the material detectable by correctly calibrated metal detection systems

BST recommend that all our products be thoroughly tested on your metal detection systems by a trained and certified professional. It may be the case that your equipment needs to be recalibrated in order to reliably detect this product and its fragments. Such a professional should be available by contacting the manufacturer of your metal detection system.
