Product Specifications

KN31SH1 | Revised February 2015

Product Description: The Shark is a fully metal detectable, heavy duty, reusable safety knife. The large stainless steel blade is concealed for upmost operator safety; this blade is ideally suited for cutting packaging paper, shrink-wrap and plastic strapping. The optional spring retractable rear hook blade is also made from stainless steel and is designed for cutting through tape, netting and cardboard. The knife features a simple one-screw blade change facility.

The body of the Shark is made from dark blue glass filled detectable nylon plastic, with stainless steel blades, stainless steel spring and brass screws.

Product Material(s): Metal detectable glass filled nylon plastic, stainless steel blades/spring and one brass screw

Metal Detectability

The material of the Shark Safety Knife is intended to be detected by metal detection systems. Detectability performance will vary based on, but not limited to the following factors:

- Detector Calibration Levels
- Food Product Type (E.g. Wet, Dry, Frozen, Liquid)
- Aperture Dimensions
- Contaminant Orientation

For this reason BST recommend that all our products be thoroughly tested on your metal detection systems by a trained and certified professional. It may be the case that your equipment needs to be recalibrated in order to reliably detect this product and its fragments. Such a professional should be available by contacting the manufacturer of your metal detection system.
